Coming Soon!

The new Energy Expenditure Plan Online Application System, the revised Energy Expenditure Plan Handbook, and revised Energy Savings Calculator tool (Version 6) are targeted for launch at end of February 2015. At that time, the Energy Commission will post on the Proposition 39 Web page all revised program materials and send each Local Educational Agency (LEA) a "Welcome" E-mail.

Only after the new online application system is launched, may LEAs submit Energy Expenditure Plan applications under the newly approved 2015 Guideline rules. Also, at that time, only the revised Version 6 of the Energy Savings Calculator tool can be used in combination with the Energy Expenditure Plan online application. Finally, Proposition 39 training seminars are planned for Spring 2015 to educate LEAs on the new application system.

Prior to availability of the new Energy Expenditure Plan Online Application System, LEAs may continue to submit Energy Expenditure Plan applications using the existing Expenditure Plan General Form A and Expenditure Plan Project Summary Form B Excel spreadsheets. However, these applications cannot reflect the rule changes just adopted on December 10, 2014, and must follow the Proposition 39: California Clean Energy Jobs Act – 2013 Program Implementation Guidelines (June 2014 version).

Questions may be directed to Prop39@energy.ca.gov or the Proposition 39 Hotline, toll-free at 855-380-8722, or for those out-of-state at (916) 653-0392.
